Dear potential Lewan & Associates customers,

As a long time customer of Lewan & Associates we would like to extend this letter of recommendation for Lewan along with Kelli Miller who is our Representative. We have been clients of Lewan for many years and recently renewed our contract with them. We have done research and found that their prices are competitive, their service is spectacular, and their knowledge of the product has been of great value to us.

A few of the reasons we recommend Lewan & Associates are:

Local. Lewan has service techs in Summit County that can generally assist us the same day we request service. In the years we have been with Lewan I do not remember a day that we had an issue with our copier that did not get fixed that day or the next.

Quick Response. They are very quick to respond with both technical questions and general questions.

Fast Supplies. When we order supplies it arrives within a day or two so we do not need to keep a lot of supplies on hand.

Attitude. We respect their "can do" attitude and make quick use of them as our "how to" people.

Knowledge. At Summit Real Estate we print a lot of marketing materials in house. We appreciate that Lewan had enough knowledge to help us choose a printer that suites our needs. But the best quality of Lewan & Associates is that you don't have to think twice about them! They are always a phone call away if you need them.

Warmly,

Allison Simson - Broker/Owner
