

Ingredients for great color... ...naturally

Introducing Xerox ColorQube

A game changing evolution in the world of color that is soy-based.

Can I make color prints for less than a penny? Yes!

Only Xerox can deliver on the promise of affordable color for every document, every day.

Xerox has the patented solid ink technology to make it practical. Built from the start for high performance office color printing, our solid ink technology has an 18-year track record of reliability. Solid ink is simple to use, produces stunning color print quality, is good for the environment, and enables **low cost color** for small businesses and global corporations alike. Obviously, it's time to **rethink your ink.**

& ASSOCIATES
A Xerox Company

ColorQube 9200 Series = 88 lbs.

Comparable Laser MFP = 815 lbs.

Sometimes Less is... *...more*

Less than 1/3 the cost of other color copiers/printers.
Less waste by 90% than standard MFPs.
More savings for you and the environment!

Affordable, **everyday color** at the **same cost per page as black and white prints!** No longer do you need to worry about the overuse or abuse of multifunction color device in your office.

Horizon Healthcare
a new horizon...

The Smoking Cessation Program at Horizon Healthcare... It Works.

"I stopped smoking for good and now I'm a doctor. Before, smoking was the professional of Horizons... it was a constant battle to make Horizons's program give me the tools to make change permanent."
-Kathy H.
