Potential Lewan Customers

Re: Lewan & Xerox

Dear Customer:

In 2007 we selected Lewan as our copier/multi-function device vendor. After careful analysis of competing copiers (and vendors) we were drawn to the Xerox 7665 copier offered by Lewan. Simply put, the Xerox 7665 is the best copier this office has ever used. In the two years the copiers have been in service the Xerox 7665s have been extremely reliable, fast and quiet. Additionally, the color is very good for a business class copier. We are so pleased with the Xerox copiers that for the first time in many years we are considering keeping the equipment after the lease expires next year.

In addition to our satisfaction with the Xerox product we have had an equally positive experience with the Lewan sales and support team. On the rare occasion that we need support there is a quick response and the equipment is running at 100% in short order.

Without reservation, I can wholeheartedly recommend Lewan and Xerox for your copier needs.

Sincerely,

Thomas J. Blot  
Administrator
