To Whom It May Concern:

RTA Architects switched over to using Lewan as our new small-format copier/printer service provider, in addition to our new supplier for copiers/printers, in 2009. As a result of this move, Lewan has reduced our overall monthly copier and printer costs by approximately 40% and gave us access to some of the best copiers/printers in the industry for small businesses. We are now able to do many of the printing tasks we used to out-source in house, saving us even more money on reproduction costs.

Lewan has also offered us a very high level of service when it comes to copier and printer technical issues. They have consistently demonstrated expertise in their field by resolving issues in a timely manner. I have yet to meet a single Lewan service provider who was not completely proficient in their area of work.

I would be more than happy to answer any questions regarding RTA's experience with Lewan, so feel free to contact me with the information below.

Regards,
